Change Image Size in Photoshop

Revised: April 3, 2021

Start by opening your photo in Photoshop.

Click Image on the top menu and then Image Size in the new menu.

Width:	4928	pixels V	Carce
Height:	3280	pixels ~	Auto
Documen	t Size:		1
Width:	15.427	inches 🗸 🕇 🖉	
Height:	10.033	inches v	
Resolution:	300] pixels/inch	
Scale Style	95		

First change the **Resolution** in the Document Size box to 72 pixels/inch.

Then change the **Pixel Dimensions** of the longest side to 1000 pixels. Click OK.

Width:	1000		Cancel
Height:	563		Auto
Documen	t Size:		
Width:	13.889	inches ~ 🕇	
Height:	7.813	inches v	
	12		

If your labels don't match this sample diagram, change them by using the pull down arrow on the right side of the label title.

Don't overwrite your original image. Click the File menu, then Save As. Save it in a separate upload folder if desired. Be sure to save as a JPEG. Save with an Image

Quality of 8 - 12. The total file size is shown.
